

One hub for all your childcare office management to increase productivity and manifest compliance

ACCESS is created for seamless processes and to maintain compliance.

- Long Day Care
- Out of School Care
- Kindergarten and Preschool
- Family Day Care

Go paper less! Designed to effectively manage your services, operational forms, educator & staff records, children's learning and documentation to achieve great outcomes and best quality standards in the field of education and care service, securely and successfully with our ACCESS plans.

WHAT IS ACCESS?

Australian Childcare Electronic System Solutions is an all in one hub for families, educators, teachers and education and care services. This system allows you as a parent, as an educator and as the owner of the business to access your work anytime, anywhere, upload and download documents, photos and videos, complete mandatory forms and submit reports online.

It is paper less, increase productivity, and guides you to meet compliance. Most importantly it saves you time and ease of use for both parents and educators. If you are from a small to large centre/service, then this platform is for you!

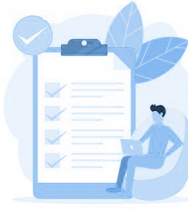

It is designed to deliver effective management of all your centres, families, educators and staff records, that streamlines the administrative and operational functions of your service. ACCESS will also guide you to achieve the educational outcomes and the National Quality Standards securely and successfully. Moreover, it gives you an easy filing and storage of all your records, important data including children's learning, and documentation.
